Professional Summary

Software Engineer with hands-on experience developing, integrating, and evolving technology solutions for the financial and enterprise sectors. Experienced across the Software Development Life Cycle, working with business areas, technical teams, clients, and stakeholders from requirements analysis and functional validation through development, testing, implementation, deployment, and production support. My technical background allows me to bridge business and technology, translating business needs into practical and maintainable solutions while contributing to system integration, continuous improvement, and the evolution of enterprise applications.

Professional Experience

Systems Analyst and Software Developer, *Banco BCT S.A.* 08/2022 – 08/2026 | San José, Costa Rica

- Contributed to the analysis, development, integration, and evolution of banking solutions, including critical platforms, system integrations, and digital channels.
- Collaborated with business areas and technical teams to understand and validate requirements, user stories, and acceptance criteria, participating in Agile ceremonies and functional validations.
- Combined software development with functional analysis, UAT, production support, incident resolution, and the continuous improvement of digital and enterprise solutions.
- Used .NET Core, C#, SQL Server, REST, SOAP, Azure DevOps, Git, and SAP ERP to develop, integrate, maintain, and support enterprise and banking solutions, including SQL-based analysis and reporting.

Full-Stack Developer, *La Creativería* 05/2021 – 04/2022 | San José, Costa Rica

- Developed and evolved web and mobile applications across front-end and back-end layers, working on solutions from initial implementation through ongoing maintenance and enhancement.
- Built interfaces and business functionality using React, Next.js, TypeScript, Node.js, and React Native, including forms, validations, tables, filters, and responsive interfaces.
- Developed REST APIs and backend business logic, integrating SQL and NoSQL databases and external services, while supporting automated deployments and continuous delivery.

Software Developer / Technical Lead, *People Connection* 03/2018 – 04/2021 | San José, Costa Rica

- Developed custom web solutions and e-commerce platforms while providing technical leadership within development teams.
- Worked directly with clients and stakeholders to clarify requirements, define technical solutions, estimate work, and coordinate deliveries.
- Coordinated development tasks, supported code reviews and functional validation, and participated in production deployments, incident resolution, and continuous improvement.

Web and Mobile Developer, *Mr. Rabbit Software / Yapp S.A.* 01/2013 – 09/2018 | Alajuela, Costa Rica

- Developed and maintained web, business, B2B/B2C, and hybrid mobile applications across the software development lifecycle.
- Worked directly with clients to understand requirements and translate business needs into implementable features, including system integrations, relational databases, and REST APIs.
- Performed functional testing, troubleshooting, deployments, and Android/iOS releases, while providing ongoing production support and evolutionary maintenance.

Education

Bachelor's Degree in Business Informatics 03/2010 – 10/2017 | Grecia, Costa Rica
Universidad de Costa Rica

Technical Skills

Backend & Full Stack — .NET, C#, Node.js, React, Next.js, TypeScript, JavaScript
Databases — SQL Server, T-SQL, PostgreSQL, MySQL, MongoDB
APIs & Systems Integration — REST, SOAP, GraphQL, API Integration
Cloud & DevOps — Microsoft Azure, Azure DevOps, Git, CI/CD, GitHub Copilot
Tools — Jira, Confluence, Postman, Trello, Excel
Agile & Functional — SDLC, Agile, Scrum, Requirements Analysis, Functional Validation, UAT

Courses & Certifications

Scrum Fundamentals Certified

ICAgile Certified Professional

DevOps and Cloud with Azure DevOps

SOLID Principles and Clean Code

Languages

Spanish
Native

English
Intermediate

Professional Competencies

Business & Technology Collaboration | Stakeholder Communication | Problem-Solving | Technical Leadership | Planning & Coordination | Cross-Functional Collaboration | Continuous Improvement | Production Support
